Dear Members of the FCC:

I am writing to express my deep concern about the possibility of Indiana's DO NOT CALL LIST being circumvented if the FCC grants the petition (#02-278) made by the Consumer Bankers Association and its affiliate members and branches. Please do not allow the expressed wishes of Indiana's citizens to be ignored and pushed aside by financial institutions that apparently have no regard for the privacy of millions who do not want to put up with unwanted, unsolicited, annoying, and harassing phone calls made by telemarketers.

Since signing up for both the Indiana and Federal DO NOT CALL lists in 2001, our family has been able to enjoy many enjoyable evenings without having to screen our calls and not be concerned with battling with inconsiderate, impolite, and irritating telemarketing calls. Please do not allow our privacy and the privacy of millions of American citizens that have taken the initiative to take back our privacy rights from companies and corporations that do not care about those rights. It is bad enough that our privacy rights have been abridged and rescinded due to the war on terror and the effort to defeat al Qaeda. Please do not take away the one bit of our privacy over which we can have some measure of control.

I will be eagerly waiting to see what the outcome of your commission's decision will be. I sincerely hope that you will not reward the CBA with a blank check that will turn back the clock on the privacy rights of all Americans. Thank you for taking the time to read this and listen to the concerns that we in Indiana have about our privacy rights.

Sincerely,
Rev. Paul Limato, Jr.
